
ICE AGE VILLAGE TIPS & TRICKS

GAME INTRODUCTION - ICE AGE VILLAGE

Ice Age Village is a building and breeding game from Fox Digital Entertainment and Gameloft for mobile devices. Join all the characters you know and love from the animated film series in their next adventure, where you'll need to help build new homes for prehistoric creatures, as well as help them breed. Taking on all of these tasks can seem overwhelming, but with my quick start guide you'll have all of the tips and tricks you need to get started.

GETTING STARTED

- To get playing **Ice Age Village**, you'll need to download it first by clicking on the "Play Now" button at the top of this page. Once you've downloaded the app, you can go ahead and tap on its icon to get playing.
- The first time you load the game, you will be asked to update it. This will take a few minutes to complete, so just be patient.

Now that the formalities are out of the way, you can get to playing! You'll be introduced to Manny, Sid and friends while you help them build new homes.

BUILDING NEW HOMES

Once you have finished the introduction with the characters, you will be taken to the main gameplay area where you'll end up playing most of the game.

- Tap on the “Stuff” icon to be taken to the menu where you’ll find all of the different items you can build within the game. From the top, we have Shop, Nursery, Collection, Friends and Options.
- For now, let’s go ahead and tap on Shop so we can start building some new homes.

Here, you'll see a list of items you can purchase organized into different categories. Sloths are available to purchase right from the start, both for coins and acorns.

To purchase the Sloth habitats, tap on the Sloth and then you will be taken into placement mode. Here, you can drag around the habitat until you have decided on a permanent location for it. Once you're satisfied with the location, tap on the green checkmark to place it down.

- Now that we have a sloth, we need to find a companion for it so that they won't be lonely in their habitat. To do so, tap on the newly built habitat, then on the "Find Companion" button to have a new companion come into the habitat. With more than one animal in a habitat, you can breed them.
- Now that you know how to build new habitats, you now know how to build any of the available structures in the game.
- After a certain amount of time passes, the habitats and buildings will come up for collection. All you have to do is tap on them to collect the coins from them. For habitats, you'll need to then feed the animals (tap again) before they will start generating more coins.

BREEDING

- When you have more than one of a single type of animal within a habitat, you can then breed them to make babies and therefore have a new family to enjoy.
- Breeding is very easy to do, and only requires a few steps to complete. To breed, tap on the habitat in which you wish to have a baby in. Then, tap on the “Baby” button, which will cost you a certain amount of coins each time you do this.

- Now an egg will be placed in the nest, and you can wait for it to hatch or spend acorns to have it hatched instantly. Acorns do cost real money to acquire however, and should only be used sparingly.
- Once the egg has hatched, you'll need to make sure you come back and retrieve it as soon as possible. Failing to do so will result in the loss of the baby, and you'll have to hatch a whole new egg to get another.

- When you finish hatching an egg, you will be given the opportunity to to play a mini-game. To play this mini-game, just swipe your finger across the egg to “rub” it. The time will eventually run out, but you can earn a sizeable coin bonus if you play your cards right.
- You can breed up to 2 babies in each habitat, at which point that particular ‘family’ will be complete, and generate more coins. All the more incentive to build additional habitats.

KUNG FU SCRAT

- At some point while playing the game, Sid will approach you about building the “Kung Fu Scrat” mini-game so the animals can have some fun.
- You can find “Kung Fu Scrat” in the special section of the shop. You can place it down anywhere you like just as you did with the other buildings and habitats.

- Once it's placed, go ahead and tap on it., then tap on "Play Game". You'll be taken to the main screen, where you'll see that it costs 1 Gem to play (or no gems if you just want to practice).
- Each day you can come here and play for a chance to win the daily special prize.
- Playing "Kung Fu Scrat" is very easy, as all you have to do is swipe at the piranhas that fly over Scrat. Do not swipe at the puffer fish or you will lose points.
- After a few seconds, the mini game will be over and you'll be shown the results. If you are not happy with the result, you can wait until tomorrow to come back and try again for free or you can spend acorns to retry instantly.

ENTER THE ICE AGE UNIVERSE

Immerse yourself in the unique realm of Ice Age and interact effortlessly of one's favorite characters as they lead you on quests and missions

Play mini games featuring Scrat everyone's favorite saber toothed squirrel

You might even receive exclusive sneak peeks from the new film Ice Age:

Continental Drift in theatres this summer

ICE AGE: CONTINENTAL DRIFT in theaters July 13 2012. Scrat's nutty pursuit with the cursed acorn which he's been after since the dawn of your time has world changing consequences a continental cataclysm that triggers the maximum adventure of most for Manny Diego and Sid. In the wake of those upheavals Sid reunites along with his cantankerous Granny as well as the herd encounters a ragtag menagerie of seafaring pirates going to stop them from returning home.

GUIDE TO ICE AGE VILLAGE FOR IPHONE: TIPS, TRICKS AND STRATEGIES

Ice Age Village is a city building game for the iPhone based on the super popular hit Ice Age movie series, and the tv shows which followed it. Your objective is to build a city for the animals who are escaping the continental drift, and you have quests that are given to you by Sid, Manny, Diego, and other characters from the film. You get to build “houses” for the animals, decorations which increase your bonuses, fun mini games that you can play for bonuses, and more. Read on for tips and tricks for Ice Age Village.

The tried and true iPhone time cheat works here. When you are waiting for something to happen, but you don't want to wait hours and hours, you can simply go to your iPhone settings, set the time ahead a few hours (or however much time you need for a task to complete), and then go back to the game and complete it. This works for everything in the game, including waiting for more turns at Kung Fu Scrat. It works in reverse though, so if you do this trick, then set the iPhone time back to normal after collecting coins or playing Kung Fu Scrat, you'll get extra time added to your waiting time.

UNLOCKABLES

UNLOCK SNOWY FOX

For this you need to be on level 2 or higher. Now Tap Sid four times and then Manny three times to unlock An exclusive animal called Snowy Fox.

HINTS

GET FREE ACORNS

Get Free Acorns When you go to buy acorns, just click in Get Free Acorns and wait full video. You can repeat it 5 times. Wait more and you can repeat again.

MORE COINS FOR SCRATS GAME!

More coins for Scrats Game! As soon as you see a snow pile click on it. It usually gives you a coin thing for Scrats Kung Fu Game! Or acorns... The longer you leave snow piles the less chance you have for this. Then you'll usually get just normal gold!!

GLITCHES

Get money and acorns If you need money and want acorns I have a trick to get you some go onto the game while on the game swipe screen or change screen to settings time and date don't go back go straight from game screen to settings screen one of your buttens on the bottom of your screen will let you go onto settings right when your on settings screen change the day say from whatever it is eg.2nd to the 3rd basically just go one day ahead and save then press back or home on settings screen when you've changed date you don't need to change the time or anything it will just get confusing so when your back on your home page go back onto ice age nd collect all the money and stars from animals ect that's for money and if you need acorns play the kung fu scrat game and you can win them or more money you can get more by doing the trick again just keep going one day at a time every time you do it you will get a coin to play the scrat game again you will get acorns eventually if you want to go back to your normal date you have to click on a game or animals and put it in your inventory then get it back out what I've told you to put your date right may be wrong but I think its wrong coz once you've collected coins n that for a day it won't give you them again lol I'm just carrying on with the date changing every time I hope this helps you it did me lol sorry ive written this in a story I'm not good at explaining things in short info .

CODES

Mcdonalds items If you change your village's name to mcdonalds and press enter you will get some coins, decorations, and an animal.

DANIMALS

Basically it's the same as the first one McDonalds except you put in danimals

BONUS ITEMS

Change your village name to either

1. Post
2. McDonalds
3. Bonus
4. Danimals You'll usually get 1/200000 gold and an animal and a decoration!

When you are expanding the village, expand to areas that have formations there, such as frozen objects. These objects are very lucrative decorations, and are free after you expand to the area that contains them. Once you have that expansion, move the object over near the buildings that you want to benefit from the bonuses associated with the decorations.

To make some extra fast cash, take all of your decorations, and put them so that they surround a blank space, giving it gigantic bonuses. Then, when a building is ready to be collected from, move it over there and collect from it, so that you get a gigantic bonus from the building. Then, once you have collected from it, move it back and do the same with other buildings. You can get bonuses of over 50% this way, which gives you a ton of extra coins.

ICE AGE VILLAGE FOR IPHONE: HOW TO GET MORE COINS AND EXPERIENCE POINTS

If you like the Ice Age movies, and you like games where you build a city, chances are you'll love Ice Age Village, the game where you build a city with the help of Manny, Sid, Diego and the other cast members of the Ice Age movies. Along with your favorite characters, your goal is to build a refugee camp for animals who are escaping from the continental drift and turn it into a full fledged city for your favorite animals from the movie series. Like most city builders, you gain experience points in order to level up and unlock new features and buildings. You also gain coins in order to build new houses and decorations as well as other buildings. Read on to find out how to get more coins and experience points faster.

Coins means cool things to buy so stick to the basic rules of the hit app and you can't go wrong: You need to focus on the creatures habitats as this is the main coin earner in Ice Age. Keep the animals happy and fed and the habitats will keep on producing coins. Expand your habitats by going to the in game store and choosing your next furry buddy. All interactions are done with a single click-click to feed, click to add a companion, click to breed (use the baby tab and remember two babies means big bucks), and two creatures in the same habitat boosts coin output too.

Getting coins for the most part is a function of collecting from all of your houses as often as possible, as well as completing quests. Maximize the coins you get from collecting houses by using the move tool to move all of the trees so that they are right next to your buildings. Each tree gives you a decoration bonus of 1% and takes up very little space so you can crowd them closely together if you want to.

As you expand you will find more decorations that come with the land, such as hot springs or a mammoth in an ice block. Those provide large bonuses so move them so that they touch multiple buildings. If you want, you can block them all up next to each other and move any collection-ready building there when you are ready to collect.

Play Kung Fu Scrat as often as you can in order to earn more coins as well. The more you play and the better you score, and the larger the combos you pull off, the more coins you get. Also, watch for Scrat to run by the screen. The Stuff and Quests menus will disappear about five seconds before he runs. When he runs, tap him and then tap his acorn to get 450 coins (this number increases as you gain levels). Also be sure to pick up any coins you find laying around, buried in snow.

To maximize your experience point gain, maximize the number of houses that you build, building houses with new animals even before families are complete. Experience points don't go up as family sizes increase, only coins do. However, once you load up on houses, make sure to complete all quests as soon as absolutely possible and then claim the rewards, as this is one of the fastest ways to earn experience.

ICE AGE VILLAGE FOR THE IPHONE: HOW TO GET FREE ACORNS

Movie based games generally aren't very good, but Ice Age Village is one of the rare exceptions. It's very well done even for a city building game, rivaling entries by established companies such as Zynga and TinyCo. You get to build a village for animals who are escaping from the continental drift, and get tips along the way, as well as quests, from characters in the movie such as Manny, Diego and Sid, all while trying to catch Scrat with his acorn. Speaking of acorns, they are the premium currency in this game. With acorns, you can buy premium buildings and decorations, as well as get all sorts of other benefits that you can't normally get with just coins. Read on to find out how to get premium acorns without paying for them.

The top way to gain free acorns is by gaining experience levels. Experience levels come quickly and furiously early on, so continuing to gain levels is a good way to build up your stash of acorns. Make sure to finish quests as quickly as possible, because they pay out the most experience points out of any activity that you do in the game.

Look around your land as well, because often you will find acorns buried in the snow. Usually it's just coins that you're going to find, but every so often, an acorn will be buried there, so make sure to click on every little mount of snow that you see pop up in your area. The more expansions you have, the more of these you'll see pop up.

Keep playing the Kung Fu Scrat game every change that you possibly can, too. You won't usually get acorns when you win it, but knock out all of the fish and get the longest combos possible, and your chances of getting acorns go up.

WHAT IS KUNGFU SCRAT?

This mini game is free to play only once a day, but can give out some cool prizes-KungFu Scrat Prize List: These are the average prizes that the Game Loft Forum Members are reporting, ranging from 50 coins all the way up to a massive 100 thousand coins, theropods are apparently also up for grabs as are Dinos. The biggest acorn payout that I've heard of in Kungfu Scrat is 100 acorns.

Other Coin Earning Opportunities

Find Scrat once a day in your buddies' villages for extra coins, heaps of Moolah appear randomly throughout and need to be dug up for a coin boost.

What can I use Ice-Age Village Acorns For?

It's best to save these acorns up to purchase rare animals, the acorns can also be used to speed up build times for your habitats and other structures and to unlock village expansions. There's many ways to earn coins such as watching in game videos, playing mini games and of course paying for them. Remember to of course keep adding friends and completing collections.

How to increase your reputation

Of course as a start you need to keep visiting friends villages and giving them a helping hand. And then just keep on sending them hearts 'cos hearts will soon enough get you stars.

ICE AGE VILLAGE WALKTHROUGH, FAQ AND BEGINNER'S GUIDE

Welcome to the beginner's guide for Ice Age Village! Here we will teach you everything you need to know for playing this new hit iPhone game, so whether you have just downloaded the game, or you have merely heard about it or seen a commercial for it and got interested in playing it, or neither one is true but you just wanted to learn more about the game, read on for all of the basic information that you really need to know.

When you start off the game, you will begin receiving quests from Sid and Manny, as well as instructions during the tutorial. Following these instructions will get you off on a good start and teach you most of what you need to know. As you level up, you'll be joined by Diego the tiger, as well as Crash and Eddie later on. Of course, Scrat will always be there in the game, chasing after his acorn, running in front of you. If you can catch Scrat when he runs across the screen, you will get a coin bonus, starting off at 450 coins and increasing as you gain levels.

Click to the bottom right corner of the main game screen on the “stuff” menu.

This is where almost everything that you can do or buy in the game resides. You can go to the Shop, where you can buy everything. The nursery is where you buy eggs and then, when the time comes, hatch them. Under collections, you can monitor the various collections you are trying to get as well as the reward for completing the collections. Under inventory, you can see anything that you have stored away, and put it back on your map if you want to. Under friends (which is unlocked once you hit level 6), you can go and visit your friends’ and neighbors’ villages, including the preloaded Scrat’s Nook. You can also add friends and visit random villages.

In the Shop, you can buy Animals (which pay you both in coins and experience), Fun Stuff (which pays you higher amounts of coins but less experience), Decorations (which add a coin bonus to Animal and Fun Stuff buildings that they sit near) and Special items (such as the Kung Fu Scrat game, and any others which are unlocked by quests. Currently Kung Fu Scrat is the only one).

Each animal family has a maximum of 4 animals that can go into one Animal building. The first animal comes with the building, and the second animal can be bought and added to the building for the same price as the first animal. Simply tap the animal building and hit “Find Companion”. The third and fourth animals are acquired by tapping and hitting “Baby” to buy an egg. When the egg is ready to hatch, you will be transported to a mini game where you rub the egg by swiping in a rubbing motion on the screen. The more you rub the higher your coin bonus. You need to go retrieve the egg within 24 hours of it being ready to hatch, though, or it will run away.

Every character has quests to give you. When you see a bubble over a character’s head, click that bubble and you will get the quest from them, as well as see the reward that you get from completing the quest.

You can buy land expansions using either coins (your main currency) or acorns (your premium currency). To buy an expansion, tap on the piece of land that you want to buy (it has to be next to land you already own) and then choose coins or acorns. Some land comes with decorations already on it, whether they be trees, rocks, or objects frozen in ice.

Happy Playing 😊
